## Skier Responsibility Code

* Be courteous to other visitors
* Maintain control of your speed and direction at all times
* Do not stop where you obstruct a trail or are not visible by others
* Obey all signs and posted warnings
* In the event of an injury, please call 9-1-1

## Important Reminder

There is **no ski patrol** sweep of the trails and conditions can change abruptly, especially in winter. **Please be prepared.** If you encounter an injured skier, carefully note your location and call 9-1-1. There is limited cell service on most trails.

## Snowshoers, Hikers & Walkers

**Walkers and Snowshoers** can help improve conditions by staying on the sides of the trail and packing the snow where the groomer doesn't reach. This will also preserve the groomed and tracked surfaces for skate and classic skiing. ***Please do not boot pack up the middle of trails!***

Hikers and dog-walkers are encouraged to use the Mt. Pisgah or South Shore Trails located nearby along Route 5A. Per Westmore Ordinance, dogs must be kept under control and on a leash. ***Please clean up after your dog***.

*Thank you for helping maintain the quality of the groomed trails!*

## Backcountry Skiing

The Northeast Kingdom Backcountry Coalition (NEKBC) maintains several gladed trails in WSF. Please use designated uphill skin tracks (no boot tracking please) and be aware of potential safety hazards. **Ski the Trees & Save the Forest!** Please no unauthorized cutting. To help, visit nekbc.org.

## Winter Maintenance

The Willoughby ski trails are maintained through an agreement between Vermont Department of Forests, Parks and Recreation (FPR) and the non-profit **NorthWoods Stewardship Center** (NWSC). Grooming is supported by State trail grants *and* public contributions. *Please make donations at the trailhead kiosk* or at northwoodscenter.org.

***Your generosity is appreciated!***
