Fire danger is **MODERATE** today. Drying continues with above normal temps and mostly sunny skies. Humidity is lower as well but winds are still light. Fine dead fuel moisture values are dropping today and long term dryness indicator continue to climb.

Tomorrow, showers are expected to move from west to east along with cooler temps and stronger winds. Fire danger will be **LOW to MODERATE** depending on when rain arrives.

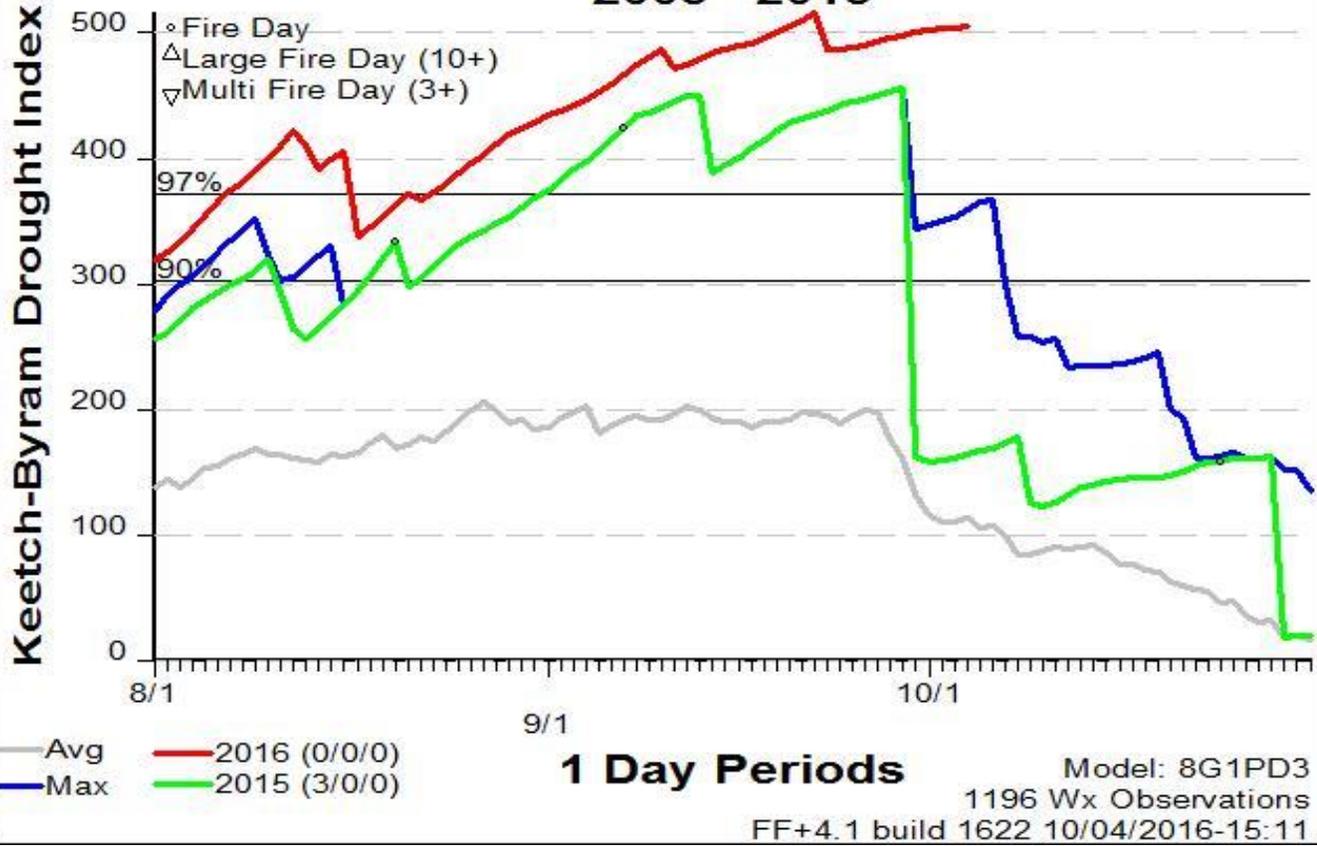

[Six Minutes for Safety: An interagency safety initiative that address high-risk situations that historically get firefighters in trouble.](#)

Report Submitted by: Vermont Department of Forests, Parks & Recreation
