Welcome back,  
Tess

Please select what you'd like to do from the menu on the left.

#### Changes to the Wildland Fire Reports Online Reporting System:

- 1) Log in remains the same but if you have forgotten your user name and password, click on the link, supply your email address and your user name/password will be emailed to you
- 2) New look - the form to submit a fire report looks more like the card version of the fire report
- 3) Fire date - click on the little calendar and select the date of the fire, able to scroll through the months in the upper left/right corners

**Note:** I have greyed out sections of the **Menu** and **Log Out** items from this screen shot of the main page. These are items for the Administration of this site that you do not have. This is my Admin welcome page and so displays these extra options. (tg)

#### Changes to the Wildland Fire Reports Online Reporting System:

- 1) Log in remains the same but if you have forgotten your user name and password, click on the link, supply your email address and your user name/password will be emailed to you
- 2) New look – the form to submit a fire report looks more like the card version of the fire report
- 3) Fire date – click on the little calendar and select the date of the fire, able to scroll through the months in the upper left/right corners
- 4) When you select the town from the drop down list, the county is automatically generated
- 5) Coordinates – click on the little green icon to get a Google Earth map, zoom into the location where the fire occurred, click on that spot and the lat/long field is complete!

### Fire Wardens User's Guide

6) Cost to extinguish table – has the look and feel of the card version but will calculate the cost and total cost fields for you. If for some reason the costs don't add across (or data is missing), you can manually enter in the cost/total cost.

7) Date/Time reported/arrived/controlled/extinguished – click on the box beside each field to get a calendar and time slider tool to set the hour/minute/second

8) Unofficial report – **Only for FPR staff** – default is official – if the report is unofficial, click on this box

9) If you want to edit a report, select “view existing reports” from the list of options in the left navigation panel – the edit button is at the bottom of the report

**Adding a New Fire Report** - From the Menu, click on **New Fire Report**.

This screen shot is the top section of the **Submit a New Fire Report** page. The fire report page looks similar to the old card form.

Required fields need to be complete for the fire report to be submitted.

The optional fields should be completed if you have this information.

### Fire Wardens User's Guide

Most fields are quick and easy to complete but don't hold up a report if you don't have all the optional information. You can always go back and edit the report at a later date.

The following instructions describe all the fields and how to complete them.

#### Fire Date (required):

Enter the date of the fire or **Click** on the calendar icon and a calendar pops up. Click on the date and it adds it to the **Fire Date** field. To change month, click on arrows at the top of the calendar.

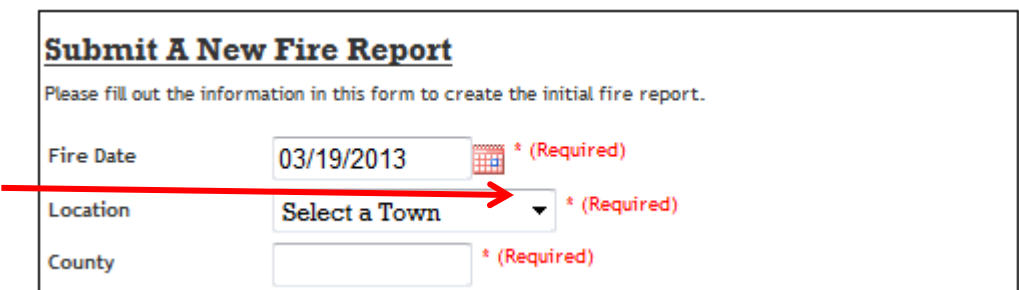

The screenshot shows the 'Submit A New Fire Report' form. The 'Fire Date' field is highlighted with a red arrow pointing to a calendar icon. A calendar pop-up is displayed, showing the month of March 2013. The date 19 is selected. The form includes fields for Location, County, Cause, Estimated Size (in acres), and Comments. The 'Cause' field has a dropdown menu. The 'Estimated Size' field has a text input. The 'Comments' field has a text area.

#### Location (required):

To complete the **Location** field, click on the down arrow and choose the town where the fire

occurred from the drop down list. When you select a town, the **County** field is automatically filled in.

The screenshot shows the 'Submit A New Fire Report' form. The 'Fire Date' field is filled with '03/19/2013'. The 'Location' field has a dropdown arrow and is highlighted with a red arrow. The 'County' field is empty. The form includes fields for Cause, Estimated Size (in acres), and Comments. The 'Cause' field has a dropdown menu. The 'Estimated Size' field has a text input. The 'Comments' field has a text area.

### Coordinates:

Adding the lat/long for the fire location is as easy as a couple of mouse clicks.

Comments:

Coordinates:  Lat:  Long:

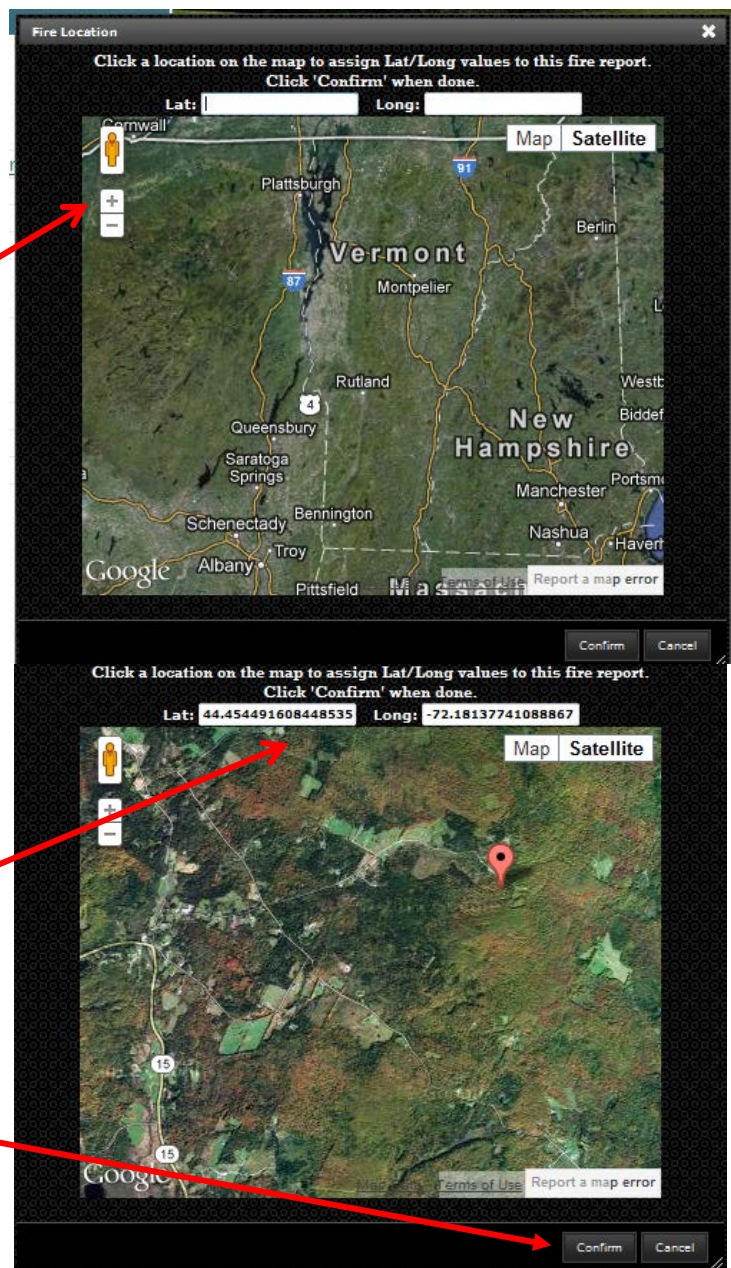

First click on the little globe to bring up a Google Earth Map (need to have Java scripts enabled).

Clicking on the globe icon brings you to this Google Earth map of Vermont/New Hampshire.

Zoom into the map using the + and - buttons and the hand to navigate to your location.

When you get to your location, click on the spot. A marker will appear and the lat/long fields are filled in.

Click on the confirm button to complete this section and return to the report.
