

The Active Outdoor Recreation Economy

A \$730 BILLION CONTRIBUTION TO THE U.S. ECONOMY

VERMONT

Active Outdoor Recreation Creates Economic Growth

More than three out of every four Americans participate in active outdoor recreation each year. Americans spend money, generate jobs, and support local communities when they get outdoors. Simple, healthy outdoor activities such as hiking, biking, camping, or wildlife viewing generate enormous economic power.

THE NATIONAL ACTIVE OUTDOOR RECREATION ECONOMY:

- Contributes \$730 billion annually to the U.S. economy¹
- Supports nearly 6.5 million jobs across the U.S.
- Generates \$49 billion in annual national tax revenue
- Produces \$289 billion annually in retail sales and services across the U.S.
 - \$46 billion in active outdoor recreation gear sales and services²
 - \$243 billion in active outdoor recreation trip-related expenditures³
- Provides sustainable growth in rural communities

Active Outdoor Recreation Fuels Economic Growth In Vermont

Vermont offers spectacular recreation — including Smugglers' Notch and Lake Champlain — and other treasured destinations that bring in tourist dollars from out-of-state active outdoor recreation participants. Vermont outdoor recreation participants also recreate close-to-home in local parks and venues.

THE VERMONT ACTIVE OUTDOOR RECREATION ECONOMY:

- Supports 35,000 jobs across Vermont
- Generates \$187 million in annual state tax revenue
- Produces \$2.5 billion annually in retail sales and services across Vermont
 - accounting for 12% of gross state product

Active outdoor recreation creates sustainable long-term economic growth and community development throughout Vermont.

The Active Outdoor Recreation Economy: a \$730 billion annual contribution to the U.S. Economy produced by OUTDOOR INDUSTRY FOUNDATION in fall 2006 is available for free download: www.outdoorindustryfoundation.org

¹ The report used multipliers ("ripple effect") from the IMPLAN model. The IMPLAN input/output model is a commonly used economic tool with over 1,500 active users including federal government, state government, academic, and private clients. The ripple effect is a common economic tool that considers the economic process of bringing final product to market and the circulation of wages and salaries through the economy to determine total economic contribution. The economic contribution is a conservative estimate in that it does not include the bulk of large durable good purchases such as boats and RVs. State economic contribution and job creation should not be compared to the national and regional figure because of greater economic leakages at the state level. Individual state economic contribution and job creation can be compared against other individual state economic contribution and job creation.

² Active outdoor recreation gear retail sales include apparel, footwear, equipment, accessories, and services.

³ Trip-related expenditures include the IMPLAN expense categories: food/drink, transportation, entertainment/activities, lodging, souvenirs/gifts/miscellaneous.

*Outdoor Industry Foundation conducted a survey for bicycling, camping, paddling, snow sports, and trail activities in October of 2005. 13,907 respondents completed the survey. 5,150 respondents were considered "qualified respondents" - by both participating in one of the activities and making a purchase related to the activity within the past year. 313 respondents from Vermont completed the survey. 92 of the Vermont respondents were "qualified".

Existing data from the "2001 National Survey of Fishing, Hunting and Wildlife-Associated Recreation" commissioned by the U.S. Fish and Wildlife Service was used to create the economic and participation data for fishing, hunting, and wildlife viewing.

VERMONTERS PARTICIPATE IN ACTIVE OUTDOOR RECREATION

	ACTIVITY CATEGORY	# OF PARTICIPANTS*	% OF POPULATION*
	BICYCLING <ul style="list-style-type: none"> Paved-road bicycling Off-road bicycling 	141,315	29%
	CAMPING <ul style="list-style-type: none"> RV camping at a campsite Tent camping at a campsite Rustic lodging 	102,828	21%
	FISHING <ul style="list-style-type: none"> Recreational fly Recreational non-fly 	92,832	18%
	HUNTING <ul style="list-style-type: none"> Shotgun Rifle Bow 	72,742	14%
	PADDLING <ul style="list-style-type: none"> Kayaking (recreational, sea, or whitewater) Rafting Canoeing 	64,731	13%
	SNOW SPORTS <ul style="list-style-type: none"> Downhill skiing, including telemark Snowboarding Cross-country or Nordic skiing Snowshoeing 	121,803	25%
	TRAIL <ul style="list-style-type: none"> Trail running on an unpaved trail Day hiking on an unpaved trail Backpacking Rock climbing (natural rock or ice) 	162,826	33%
	WILDLIFE VIEWING <ul style="list-style-type: none"> Bird watching Other wildlife watching 	282,000	54%

*Wildlife-based participation is based on adult population 16 years of age and older living in Vermont in 2005: 519,977 (US Census). Non wildlife-based participation is based on adult population 18 years of age and older living in Vermont in 2005: 490,745 (US Census). Detailed activity definitions and participation calculations are available in the technical report.

Vermont not only attracts those from out-of-state to take part in active outdoor recreation but also, with exceptional close-to-home recreation, generates economic activity from active Vermonters.

The economic analysis was conducted by Southwick Associates, Inc. The consumer survey was developed and executed by Harris Interactive@.

SOUTHWICK ASSOCIATES, INC. specializes in quantifying the economics of fish, wildlife, and outdoor-related activities for government agencies and industry.
