

CAMPGROUND EXPANSION

CONCEPTUAL SITE PLAN OPTIONS

PREFERRED SITE PLAN:

PLAN HIGHLIGHTS:

- More formalized circulation pattern to maximize the number of RV sites
- Maintains existing vehicular circulation from existing east campground loop (sites 1-22), but maintains single entry and exit points
- Minimal impact on existing east loop campsites (removed site 4 only)
- Separates campsite types (RV, tent)
- Creates central common space with bathhouse, playground and open lawn areas within RV camp area, and designates quieter tent sites along the southern edge

CAMPSITE TYPE BREAKDOWN

- 21 BACK-IN RV SITES (minimum electrical hookups)
- 15 TENT SITES

KEY

- 6 Existing Campsite
- T Tent Site
- E Electric Only Site
- FH Full Hookup Site
- DS Dump Station
- W Water Faucet
- ♿ Restroom / Bathhouse
- ⚡ Playground / Playfield
- Trails
